Amazing Function

Effective care for skin problem

Most sebum care don't just control sebum but also take away skin moisture. Omega HydroPeel2 extracts sebum & black heads and reduce skin moisture at the same time.

Skin care that increases moisture & decreases heat

Omega HydroPeel2 improves skin moisture with AHA & NMF which help your skin stay hydrated.

Dewy, moisturized and glowing skin

Omega HydroPeel2 gives dewy and glittering skin without downtime.

Skin moisturization

Hydro peeling gently exfoliates dead skin cells, cleanses skin thoroughly, and extracts blackheads to hydrate and nourish skin. It is capable of performing all these effects in 1 quick treatment with great results.

Skin care without bleeding & pain

It is noninvasive peeling without bleeding or pain. Therefore, it is safe and convenient skin care with very low risk of secondary infection after procedure.

Non-abrasive peeling with less skin damage

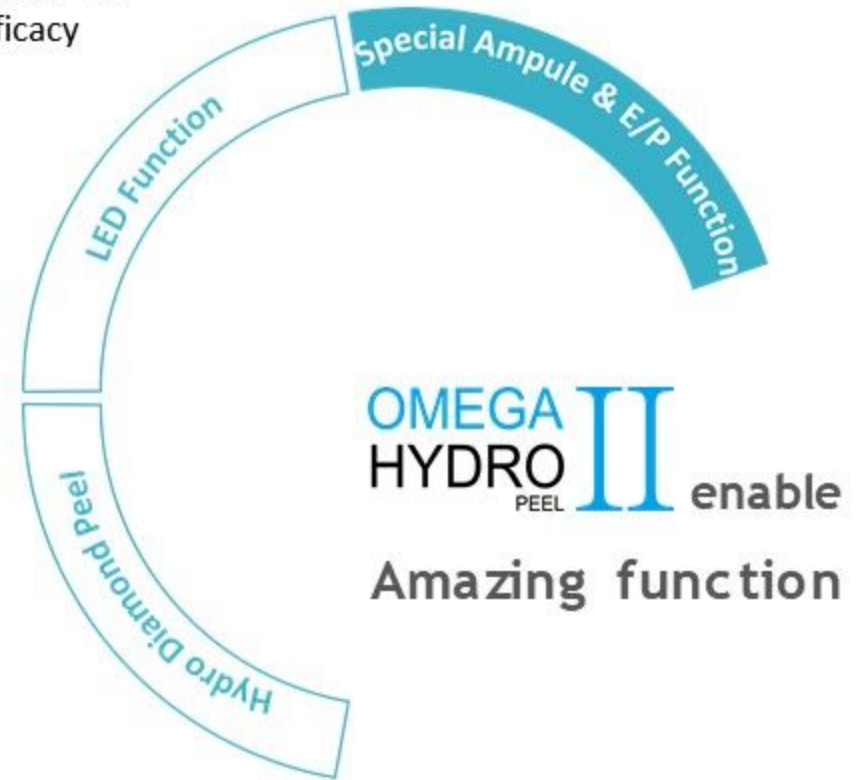

Unlike strong drugs, blades, or laser treatment, It is a mild and safe skin care suitable for long-term skin care program.

Special Ampoule per skin type

Special ampoule available depending upon skin problem as well as basic Hydro peel solution

Better efficacy with E/P function

E/P function increases the permeation of special ampoule thus achieves better efficacy

Advanced hydro peeling combined with PDT (Blue and Red LED) function

Blue LED cares skin trouble and pores with essential hydro solution. Red LED activates the function of ampule to soothe the skin.

The special LED handpiece enhances the effect of hydro peeling which differentiate amongst other devices & skincare programs.

HaDaPeel (Hydro Diamond Peeling)

Potent Hydro Diamond Peeling enables treatment of scars and rejuvenation without irritation

A new paradigm of microdermabrasion – Hydro Diamond Peeling with moisturization.

Coated with diamond powder, the Diamond tip is applied along with exclusive solution containing NMF which reduces the stimulation to the skin. This special tip is able to treat stretch marks, scars, acne spots and etc.

Compared with conventional spicule peel, it causes less pain and dryness and requires less downtime. It helps to design versatile and effective treatment plans by adding AHA, BHA, NMF and other special ampoules.
