# I. FOREWORD

---

In recent days, Korea is regarded as Mecca of beauty. Global launching of most aesthetic product begins from South Korea. It is the place where new beauty treatment are invented & introduced. Our training programs are sponsored and certified by Korea's No1 Aesthetic Clinic.

In this training courses, elite trainers from will share innovative and most recent Korean aesthetic treatment techniques, in-depth knowledge and experience through lectures, observation & explanation, one-to-one guidance and detailed hands-on lessons. They will also share personal techniques and advanced tips & tricks. It will help participating doctors to develop professional competencies, enhance practical skills, and elevate aesthetic practice to the next level; allowing to achieve added success and the confidence that the patient are being treated with the utmost precision and safety.
